

TRUSTe Certifies Vusion's WARP Video 2 1.0 Plugin

SAN JOSE and SAN FRANCISCO, Calif., - June 9, 2008 - Vusion, providers of instant-on, full-screen, high quality streaming video, today announced that the current version of its award-winning video player and plug-in has been certified as a trusted Standard Application by TRUSTe.

WARP Video 2 1.0 has been designated as a Standard Application, which is currently Certified by the TRUSTe Trusted Download Program.

Standard Application: means software that neither serves advertising outside of its own interface (e.g. as pop-ups), nor collects a user's behavior in another application to transfer to a third party.

Vusion Privacy Policy:

Vusion does not collect or track any user identifiable information during plug-in download, install or video play.

About TRUSTe

TRUSTe Privacy Standards and Principles: The TRUSTe program is consistent with government and industry guidelines concerning the use of your personal information. These standards include the Organization for Economic Cooperation and Development (OECD) Guidelines on the Protection of Privacy and Transborder Flows of Personal Data, the Federal Trade Commission and Department of Commerce's Fair Information Practices, the California Online Privacy Protection Act, and the CAN-SPAM Act.

About Vusion

Vusion provides an advanced, end-to-end video distribution service that radically improves the user experience for streaming Internet video. Vusion's customers include content and digital media providers, and content delivery networks who need to offer high-quality and mixed media to large populations of end-users. The Vusion streaming video delivery service is based on cutting-edge technology, including proprietary algorithms, protocols and software. The Vusion unique instant on video service provides an end-user experience that is second to none and enables new Internet business models based on advertising, subscription services, syndication and pay-per-view with full DRM.
